

PROGRAM OVERVIEW

Leadership development is a process of continuous improvement. Our training creates shifts in one's understanding of what it means to lead and focuses on the fundamental human side of leadership that is critical to creating more engagement and inclusion while developing high-performance teams.

We partner with your organization to create a training program that fits within your schedule with the option of post-program coaching support. Leaders gain personal insights through various **assessments** and apply those insights as they learn about **conflict resolution**, delivering **feedback**, managing **team dysfunction** and developing team **psychological safety**.

ENHANCE INDIVIDUAL AND TEAM PERFORMANCE

Leaders learn the importance of understanding individual motivators and how to manage team dysfunction so they can create the right environment for them to thrive.

INCREASE RETENTION

Employees leave managers not companies. With strong leadership development, your teams gain workplace satisfaction and you'll have greater retention.

GAIN LEADERSHIP CONFIDENCE

When leaders gain the knowledge and tools to empower their teams they become empowered leaders with a clear team vision and the confidence to make that vision a reality.

ASSESSMENTS & COACHING

Fast track insights and growth through supportive coaching and trusted science-backed assessments such as **Gallup Strengths, Hogan and Forte Interactions**
