

## PROGRAM OVERVIEW

The science of positivity is gaining its rightful place in organizations and the workplace because it works. *Psychological Safety, Social Capital, Growth Mindset*, and the adoption of a *Strengths Approach*, all have the power to positively impact engagement, productivity, and ultimately profitability.

Positivity is still widely misunderstood and underutilized. Michele & Liana run an acclaimed webinar that arms participants with the foundational understanding and tools needed to make positivity in the workplace work for them. Great for leaders, organizations, and client groups.

## LEARNING IMPACT

### Scientific Understanding

Fundamental knowledge of scientific principles helps make the need for implementation clear and the learnings stick.

### Leadership Confidence

Tools and strategies presented help leaders move from basic management to being true people leaders.

POSITIVITY  
IN THE  
WORKPLACE

“

As a manager it gave me a lot to think about. Also things I can use in the future to bring the staff closer and work together.

Thanks.
